LANGUAGES

- English: I'm fluent in English and can communicate effectively, though it's not my native language.
- Nepali: I am a native speaker of Nepali, fully proficient in speaking, reading, and writing.
- Bhojpuri: I have native proficiency in Bhojpuri, with a deep understanding of the language and cultural nuances.
- Maithili: Maithili is another native language for me, and I am completely comfortable speaking, reading, and writing in it.
- Bajika: As a native Bajika speaker, I can communicate effortlessly and understand all its idiomatic expressions.
- Hindi: I have basic conversational skills in Hindi and can understand it fairly well. Additional Languages: I have a basic understanding of several other languages, which helps me in basic conversations.

PROJECTS

◦ Smart Home System

- Description: Developed a Smart Home System that allows users to control home appliances remotely using a mobile app.
- Technologies Used : Arduino, Wi-Fi module, Sensors (temperature, motion, light), Relays, Mobile app interface.
- Key Features: Remote control of lights and appliances, real-time monitoring of home environment, energy management and reporting.

◦ Smart Dustbin

- Description: Created a Smart Dustbin that automatically opens its lid when it detects movement and sends notifications when it's full.
- Technologies Used: Ultrasonic sensor, Servo motor, Microcontroller, Wi-Fi module, Notification system.
- Key Features: Automatic lid opening, full capacity detection and alerts, data logging for waste management.

◦ Science Exhibition Projects

- Description: Participated in a science exhibition at Sanothimi, Bhaktapur, where I showcased innovative projects such as a smart home and a smart dustbin.
- Technologies Used: Various programming languages including Java, C, C++, and Python.
- Key Features: Demonstrated leadership and communication skills by explaining the projects to visitors and judges, received positive feedback for innovative solutions.
